

The Clerk of Supreme Court is not an elective office that most people think much about, if at all. But, it is a very important part of our judiciary. The Montana Supreme Court relies on the clerk's office to ensure that cases are filed properly and timely. Rex has been a leader of the clerk's office team that has kept

the process operating smoothly and efficiently for years. During the eight years I served on the Supreme Court I was chairman of the court's commission on technology. During that time the commission oversaw the development and implementation of electronic filing in the clerk's office and across the state. Rex was intimately involved in the process. Rex traveled the state to conduct seminars and educate the public about the benefits and use of the e-filing system. I cannot say enough about Rex's professional qualifications to serve as our next Clerk of the Supreme Court. Please join me in voting for Rex - for Montana's sake!

Mike Wheat, retired Montana Supreme Court Justice
